The Cemstone and TCC Materials Companies Welcome Corporate Controller Jon Hegman

MENDOTA HEIGHTS, Minnesota

October 18, 2022

The Cemstone and TCC Materials companies, leaders in the ready-mixed concrete and construction materials industry are pleased to announce the addition of Jon Hegman as Corporate Controller. Jon will office at Mendota Heights, MN and will lead the Accounting Department.

Jon brings over 15 years of experience in finance, accounting, manufacturing, and operational experience. Jon was formerly Corporate Controller for Horton Inc. and has held finance positions at Cummins Inc. and Valspar Corporation. Jon has his bachelor's degree from Gustavus Adolphus College and his Master of Business Administration from the University of Minnesota. Jon is also qualified as a Certified Management Accountant.

Jeff Meek, Chief Financial Officer, said "Our Finance and Operations teams are extremely pleased to welcome Jon to be part of the Cemstone & TCC family. Jon brings a breadth of knowledge and skill that will enhance our Finance team to support our goal of providing world-class service to our internal and external customers and continuing to grow our family business."

Thor Becken, President, said, "We are all extremely pleased to have Jon be a part of our companies. Jon brings us great experience and knowledge for this position. We look forward to Jon's contributions to lead us into the years ahead as we celebrate our 95th year in business. We welcome the Hegman family to our family business."

The Cemstone and TCC Materials companies have been led by the Becken family for five generations and are based in Minnesota. Cemstone, best known for its blue ready-mix trucks, operates ready-mixed concrete operations across Minnesota, Wisconsin, and Iowa. In addition to concrete, Cemstone offers a complete line of construction materials including concreterelated products, concrete pumping capabilities, aggregates, engineering services, and concrete and masonry supplies. TCC Materials, Amcon Concrete Products, and BlueStone Products are leading manufacturers of cementitious packaged products, architectural block, liquids, mastics, solvents and high-performance products with operating facilities in Minnesota, Iowa, Wisconsin, Nebraska, North Dakota, South Dakota, Kansas, and Pennsylvania. TCC Materials produces products under multiple brands including Spec Mix®, Quikrete®, Akona®, Sakrete®, Tenon®, NorthRock®, Keystone®, and Allan Block®.
