

# CEMSTONE®

Highway 22 and Le Sueur County Road 21 - St. Peter, MN

## CONCRETE ROUNDBABOUTS PROVIDE BETTER:

### DRAINAGE

- Easy to set grade
- Eliminates the potential for low spots and ponding
- Easy to maintain grade though roundabout during construction

### MAINTENANCE

- Low maintenance costs
- Limited need for detours on future maintenance
- Eliminates rutting and shoving
- Durability and long life = sustainable

### SUSTAINABILITY

- Absorbs CO<sub>2</sub>
- Reduced heat island effect
- Reduction in lighting needs

### SAFETY

- Better nighttime visibility
- Reflective and bright = increased safety
- Excellent riding surface for all weather conditions

### DESIGN

- Ideal for rural areas
- Less excavation needs
- High load bearing capacity
- Ideal for heavy truck loadings
- Constructed on most subgrades
- Requires less imported materials

## MAKE CEMSTONE YOUR ONE-STOP ROUNDABOUT SHOP

Bundle all of your project needs with Cemstone from beginning to end. We offer Concrete Pump and Conveying Services, Aggregates, Construction Supplies, Landscape Supplies, Free Project Estimates and more.

### DESIGN ASSISTANCE

Contact Cemstone Engineers for assistance on mix designs, pavement thickness determination and jointing plans. Cemstone Engineers collaborate with Engineers from the National Ready Mix Concrete Association (NRMCA) Pave Ahead Group and other concrete industry associations that can serve as resources on your next project. Contact [Engineeringhelp@cemstone.com](mailto:Engineeringhelp@cemstone.com) to connect with an Engineer.

### GUIDE TO MIX SELECTION

Cemstone's Engineering Services Group is your go-to resource for concrete mix design selection. Our Engineers will assist you with selecting the best mix design to ensure strength and durability from conforming to a DOT standard to American Concrete Institute (ACI) or meeting any sustainability goals you may require. Use Cemstone's Spektra™ integral color to highlight and accent the central island of your next roundabout and/or delineate sidewalks to further improve pedestrian safety.

### PROJECT ESTIMATES

Send your next roundabout project to Cemstone's Proposal Development Analyst for a free project estimate. Using your design documents, our Analyst will perform a material take off and provide a quote for the construction supplies needed to complete the project, all available at Cemstone Supply. For more information or a project estimate, contact our Proposal Development Analyst at [Projectestimates@cemstone.com](mailto:Projectestimates@cemstone.com).

### CONCRETE PUMPING & CONVEYING SERVICES

Ranging from line pumps to 61 meters, our ready-mixed concrete pumps have a horizontal reach up to 171.9'. Set up pump truck and conveying services with your ready-mix order on your next project. If you have questions regarding pumping on your next project, contact one of our Pumping Specialists to answer your questions. A Pump Specialist will visit your project site to select the correct pump and any additional equipment for a successful placement.

### CEMSTONE SUPPLY PRODUCTS

Cemstone Supply offers all supplies needed for roundabout projects from start to finish. Below are some of over 10,000 products we offer that may be suitable for your roundabout project. Send your project specs to us for a free estimate.

- Detectable Warning Plates
- White Pigment Curing Compound
- Curb, Gutter & Concrete Finishing Tools
- Concrete Cutting Equipment
- Diamond Blades
- Forming Materials
- Traffic Safety Cones
- Laser Levels
- Compacting Equipment
- Decorative Concrete Materials & Stamps
- Erosion Control Materials
- Block, Brick & Pavers
- Form Tubes
- Nail Stakes
- Expansion Joints
- Culverts
- Trench Drains
- Light Pole Bases
