## **2021 National Ready Mixed Concrete Association Excellence in Safety Awards**

*Mark Rock, CalPortland; Safety Task Group Chairman*

*Todd Swenson, Summit Materials; Safety Task Group Vice Chairman*

*Dale Kotzea, GCC Ready Mix, Safety, Environmental and Operations Committee Chairman*

*Mike Brekken, Cemstone Products Inc.; Safety, Environmental and Operations Committee Vice Chairman*

*Richard Umbel, CRH, Midwest; SEO Executive Committee Liaison*

*Kevin Walgenbach, National Ready Mixed Concrete Association; Sr. VP, Compliance and Regulatory Affairs*

*Gary M. Mullings, National Ready Mixed Concrete Association; Executive VP, Operations and Compliance*

The National Ready Mixed Concrete Association (NRMCA) Think First Safety Contest has for many years been a safety performance and incentive/award program aimed to foster safe practices at ready mixed concrete plants across the nation and recognize those plants who have great safety records. The NRMCA Safety Task Group has responsibility for the “Excellence in Safety Awards Program”. It is a 3-tier system, basing the winning facilities from the latest OSHA / Bureau of Labor Statistics (BLS) Incident Rate available for the ready mixed concrete industry. Only those plants with an incident rate below the national average receive awards. The latest BLS data (as of January 2021) shows the ready mixed concrete industry with an incident rate of 4.8. The 3-tiers of “Excellence in Safety Awards” are broken down into Gold, Silver and Bronze:

- Gold – Incident rate equal to zero
- Silver – Incident rate greater than zero and equal to or less than 2.40 (1/2 the industry average)
- Bronze – Incident rate greater than 2.40 and less than 4.80

Incident rates are calculated from individual plant's OSHA's 300A Log. The *Incident Rate* is equal to the sum of the *Lost Day Injuries/Illnesses, Restricted Duty Day Injuries/Illnesses* and *Other Recordable Cases* multiplied by 200,000 and then divided by the *Number of Employee Hours Worked at the Plant*.

### **Analyses and Trends**

Since the safety contest began in 1996 more than 27,000 plants have entered, and many of these entered the contest every year. Total cubic yards continue to be measured, with 86,180,588 reported by participating companies this year (2020 data). There were 272 lost-time accidents reported by companies in the 2021 contest, and there were 239 DOT-reportable mixer-truck accidents. For a complete analysis please see the 2021 NRMCA Safety Benchmarking Report at [www.nrmca.org](http://www.nrmca.org).

<i>Data from year</i>	<b># Plants entered</b>	<b>Total cubic yards</b>	<b>Average cy/plant*</b>	<b># Lost time accidents</b>	<b># Mixer truck accidents</b>	<b>Average lost time &amp; Truck accidents/plant</b>	<b>Certificates awarded</b>

\*Some plants did not report yardage

NRMCA's Safety Contest is a per-plant contest open to all concrete batching facilities operated by NRMCA member companies. All company safety performance information is kept confidential. The 2021 program began accepting submissions for the Safety Contest on January 15, 2021. The deadline for submitting the plant specific information was April 23, 2021. NRMCA member companies were urged to submit data for all plants and not to pick just better performing facilities.

Over the past few years, the program has grown to become NRMCA's most popular award recognition program. The NRMCA Think First Safety Contest and NRMCA Safety Benchmarking Program entry forms were combined and computerized to enhance both programs. The data are analyzed and used to establish industry benchmarks for safe operations. The 2021 NRMCA Think First Safety Contest received 1,675 individual plant entries, which is the highest number of plants to enter the contest in a single year. All entries included safety records from calendar year 2020. NRMCA has estimated that there are currently 7,000 plants in the United States. The largest category for honored plants was *Gold* with 1,123 Excellence in Safety Awards. The *Silver* category had 14 Excellence in Safety Awards. The *Bronze* category had 80 awards. The total number of plants receiving "Excellence in Safety" awards in 2021 is 1,217, which is an all-time-high for the program. Please see the following pages in this report for a complete list of the 2021 NRMCA Think First Safety Contest winners. The honored plants are listed in company name alphabetical order.

The authors would like to congratulate the 1,217 winners of the "Excellence in Safety Award" for 2021 who all had plant incident rates lower than the national average. Finally, to all of the plants that have entered the contest, it is due the efforts of all who have voluntarily shared their safety records, that the industry will continue to keep safety an utmost priority and will continue to strive to improve safety records through the benchmarking data that this contest provides.
