

Agricultural business operations are some of the most demanding working environments. Whether it's barnyard paving, manure pits, grain bins or silo pads our AG-CRETE® ready-mixed concrete is specifically designed to meet and exceed these agricultural application needs.

AG-CRETE mixtures also meet or exceed all specifications set forth in the Midwest Plan Services "Farm & Home Concrete Handbook" and the American Concrete Institutes's Guidelines on Durable Concrete.

USES

- Grain bins
- Feed bunks
- Feedlots
- Barn floors
- Feedlots
- Barn floors
- Underground silos
- Manure tanks and pits
- Cleaner, healthier environment for livestock
